MANTA - Polish family company. Established in 1998

Manta S.A. company is a dynamically developing company specializing in the sale of consumer electronics. Since 1998, it has been gaining the trust of customers by offering high-quality products.

Striving for continuous development and innovation, Manta S.A. invests in research and development. The result is smart TVs, wireless speakers, smart home appliances and energy management systems. Manta S.A. has won many awards, and customer loyalty and product popularity are constantly growing.

Cooperation with leading retailers across Europe has enabled Manta S.A. further development and growth. The company continues to expand by offering innovative consumer electronics products. Its portfolio includes a wide range of products that combine innovation, functionality and attractive design.

Manta S.A. is recognized as one of the leaders in the consumer electronics industry. It operates globally, with a strong presence in international markets. The company continues to develop its technologies, adapting to the changing needs of customers.

Currently, MANTA S.A. is the Polish company producing consumer electronics equipment, which - taking into account the scale of turnover - competes with large, global concerns and as one of the few Polish manufacturers can boast 27 years of experience.

HEATED VESTS

Heated vests are an innovative solution that combines fashion with functionality. Equipped with heating panels, these unique garments provide additional warmth in cold conditions. Heated vests operate by powering themselves with a portable energy source, such as a power bank. With them, you can enjoy thermal comfort, regardless of the ambient temperature. They are an ideal solution for active outdoor people or for those who want protection from the cold in their everyday life. Discover how a heated vest can keep you warm and comfortable in every situation!
